MR. VAN NAME OUT OF COURT.

JUDGE LAWRENCE SAID HIS CASE COULDN'T GO TO A JURY.

Was Divorced from Him, and That Spoiled His Suit-Mrs. Van Name's Norvousness on the Stand Yesterday and Her Surprise and Triumph This Morn-

All the parties interested in the \$25,000 suit of Husband Van Name against Mr. Bristead, for alienation of a wife's affections, were in upreme Court, this morning, when Judge Lawrence mounted to the bench.

They were all stricken with some shock of surprise, therefore, when the Judge declared the case off. He ruled that as the testimony yesterday showed that Mrs. Van Name had secured a divorce from the plaintiff the suit of her quondam husband could not be submitted to the jury.

Mrs. Van Name and Bristead left the court triumphantly. Mr. Van Name also left, but out exaltation. The revelations in the case yesterday were

slightly exhilarating.

Mr. Van Name, besides declaring that he had always been a nice husband and never called his wife bad names or got drunk, admitted that his wife had secured a divorce from him and said that he had forgiven the indiscretions with other men to which she

indiscretions with other men to which she had confessed.

Richard H. King, who boarded at Cuthbert Manor while the Van Names and Bristead were there, testified that at first he couldn't tell which of the two men was husband to the lady—Mr. Bristead was so devoted to her. He had seen Mr. Bristead go into Mrs. Van Name's room, and had seen Mrs. Van Name go into Mr. Bristead's rooms. The visits were not brief ones, either.

Name go into Mr. Bristead's rooms. The visits were not brief ones, either.

Mr. King's wife testified that she had seen Mr. Briztead and Mrs. Van Name calmly teome out of the bath-room together. Mrs. Van Name explained the matter by saying that Mr. Bristead had been washing her hair. Beveral more witnesses were called, and thea the plaintiff's case was rested.

A. Van Name showed some agitation while grving her testimony, and there was an unusual pallor in her cheeks. At times it decked as if she would completely break down.

down.

She avowed that Mr. Van Name had deceived her in regard to his income and had never done more than pay her board for her.

Mrs. Van Name tearfully declared that she paid for her own clothes with money supplied by her mamma, now deceased. She and Van Name had the kind of a time that the parrot and the cat did. He accused her unjustly of infidelity, struck her once and applied vile epithets to her. Once he actually threatened her life.

She stated that on one occasion he confessed to her that he had embezzled money from insurance companies and would be ruined if he could not pay it. He proposed to her that she should get one Houseman, to whom he was in debt, in a compromising situation. Then he would appear, do the outraged husband act and get big money from his dupe. She positively declined to co-operate in this neat little scheme.

She said that her husband went to Koster & Bial's at night. She went with him once, but only once.

When Lawyer Grady asked her about the bathroom episode, she denied it, and said

We hear a great deal said about the beneficial effect upon invalids of the climate of Colorado and other Western localities, but when a man changes his place of residence in the hope of improving his health without first trying Dn. This great remedy owes its rower over all affections of the throat and lungs, bronchitis, asthma, catarrh and even consumption, which is lung servicus, to the simple fact that it purities and enriches the blood and invigorates the debilitated system.

Politicians, city officials, Supreme Court Judges, bankers, lawyers, physicians, clergymen, merchants and others are quoted in favor of Mr. Depew's appointment.

Jas. Mooney, Niagars Park Commissioner and ex-President of the Irish National League, favors the appointment.

Among thers interviewed are Peter Doyle, Rev. Patrick Cronin, editor of the Catholic Union: Protestant Episcopal Bishop Coxe, County Clerk Orr, Supreme Court Judges Haight and Lewis, Senator John Laughlin, ex-Senators McMilian, Sprague and Williams and John J. The others say that he is a clean, capital man, with peculiar qualifications for the office.

A SAD COURT STENOGRAPHER

ED F. UNDERHILL SUED FOR DIVORCE BY HIS EX-TYPEWRITER.

He Is Surragute Rangem's Stenographer and a Watering-Place King-The Cause Alleged by the Wife Is Descriton and Failure to Support-Mr. and Mrs. Underbill Maintain a Professional Reti-

A divorce suit, which, if it comes to trial in court promises to develop very interesting particulars, has been commenced by Mrs. Evelyn T Underhill against her husband, Edward F. Underhill, widely known as the Surrogate's stenographer. Mrs. Underhill's complaint is that of desertion and failure to support.

Mr. Underhill, the defendant, has been a court stenographer since 1852. He came here from the West, and soon after securing his position in the Supreme Court took active measures to have the Legislature pass a bill appointing official court stenographers. He has been married twice, the second time to the complainant, who was a stenographer in his employ. He has been successful in his profession, and is said to have accumulated considerable wealth. He has devoted much time during the past few years to establishing a summer resort near Nantucket, which he calls Siasconset. He owns the entire place, and has earned the title of the "King of Siasconset."

The "King" is one of those real nice old men, and is about sixty years old. He employs a number of female typewriters and stenographers, who are noted for their fair faces and figures.

When The Evenino World reporter called at Mr. Underhill's office at 22 Spruce street this morning, three pretty girls looked up at at him. The reporter was slightly embarrassed, but managed to ask whether Mrs. Underhill still had an office in the building. One of the young ladies smiled knowingly, looked at the others and said:

A visit was next made to Mr. Underhill's residence, 203 Eas' Thirteenth street. Mr. Underhill was just leaving for his office.

"I have nothing to say," he brusquely replied.

"Find out."

The reporter gave it up and passed on to interview the dusky damsel, who stood guarding the entrance to the flat. She knew nothing. Mrs. Stewart, sister of Mrs. Underderhill, came to the door and told the reporter that they would say nothing whatever about the case. She did say, however, timt Mrs. Underhill was still living with her husband. Before the reporter had time to ask whether it wasn't queer that she was still there, considering the grounds of her complaint, the door was shut.

door was shut.

Lawyer Henry G. Atwater is retained by Mrs. Underhill, but he was as mum as an oyster when the reporter called. He refused absolutely to say anything. It is not known whether Mr. Underhill will answer the complaint or not.

Miss Irving took the stand and produced the letters complained of, noting with the eye of an expert what she said were various attempts on the part of young Wells to disguise his handwriting.

On cross-examination Miss Minna said she had been acquainted with the defendant four years and had received more than five hundred letters from him during that period. She had had trouble with him at various times, and the invariable cause was his habit of writing indecent letters to her.

Interrogations as to an engagement of marriage between the parties were excluded, and then Lawyer Perry asked:

"No. "Tis not true!" she almost screamed.

Not Quite So Sick as Reported Meredith's STUCK IN THE MUD

At 10,30 this morning the double-starred blue flag, Rear-Admiral Stephen B, Luce's ensign, ran up the proper peak on the U. S. corvette Galena, lying at Cob Dock, at the Brooklyn Navy-Yard.

At the same moment Admiral Luce stepped on board and every officer and sailor drew himself up to his full manly height.

Days of warlike preparation had culminated in complete readiness for warfare. The Galena was under orders and prepared to obey. She was going to offer Hayti the dreadful alternatives of apology or a fight to the finish.

Nobody doubted the result. There was a lion's heart in every man on the Galena, besides the inspirations of a sweetheart whose farewell kisses were yet warm on his cheek.

At exactly 11.30 the lines were cast off, and the Galena parted company with the dock. the countenances of friends and comrades on the dock, who were to be left far from the stern scenes of war.

The tug Catalya came bustlingly up to the side of the sturdy man-of-war, puffing pompously over its share of the glory. For was it not this same Catalpa which was to tow the Galena down to the clear water of the bay?

Indeed it was, and the busy little body felt her importance to the full. She gave a quick, strong pull, after being made fast to the corvette, and the latter's stately bow swung out a full twenty feet from the dock.

The voyage to Hayti was begun!

The next moment something stopped. It was the Galena. So had the Catalya.

The tug was still pulling hard, but its puffing had altered from that of pompous arrogance to that of asthmatic dismay.

The Galena had net a new enemy, and its name was Mud. So was the Galena's, for the time being.

Puff! puff! went the tug and the hawsers strained until they seemed likely to break. But the mud held on. It had the stern of the war vessel caught in its tightest grip, and though the Galena's bow swung freely enough the stern remained as fixed and immutable as the famed code of the Medes and Persians.

The tug Nina came to the rescue with a flourish. She puffed up in anticipated triumph over the discomfited Catalpa. She caught on and pulled her stoutest, but mud still was king and not a budge budged the

of wind together, and the attempt to move on was given up.

Time and tide will wait for no man, but the Galena must wait for the tide.

At 12.05 p. M. there ended Round 1 in the great contest of the Republics—Hayti against the United States—and the Haytians were on top. Mud was their ally.

Carry the news to Legitime, and, meanwhile, excuse this smile.

The Yantic is expected to reach Hayti several days later than the Galena. If the mud holds good the smell of battle is very far off for the Haytian warriors.

A revolutionary spirit prevails, and it would not be surprising if the royal power should be eliminated altogether.

King Milan has made himself thoroughly obnoxious to the people. Demands for his overthrow or abdication are muttered on the streets. Nothing can save him but the intervention of Austria or Russia. The interference of the latter power would cause trouble.

The crisis at Belgrade disturbs the peace of Europe.

THE RIVER HELD HER CLOSE

A PRETTY YOUNG GIRL'S SUICIDAL LEAP FROM A FERRY-BOAT.

This Is Added to the Ever Increasing Mys-teries of the Metropolis—No One Know the Girl, but All Saw That She Was Grief-Stricken and Bohaved Strangel She Folded Her Hands and Jumped.

To the ever increasing number of mysteries in this great city is added that surrounding the unknown girl who committed suicide las night by jumping from the deck of a North

River ferry-boat.

The girl was about eighteen years old, of rather above the medium height, and was clad in a suit of mourning. Her long, shining black hair was braided into a plait and hung down her back. Her eyes were black and she had been crying, as her eyelids were red and tear-stained. She carried a small paper parcel.

The first that was seen of the girl was in the Twenty-third street ferry-house of the Eric Railroad, about 7.45 o'clock, where the gateman noticed her nervously pacing the floor. She seemed to be utterly grief stricken. When the ferry-boat John King entered the

slip and the passengers were discharged, she walked aboard, went to the forward cabin on the ladies' side and took a sent. Before the boat started, however, she retraced her steps and sat down on a bench on the after-deck. The atmosphere was freezing cold and the wind was blowing a hurricane. The young woman kept her head buried in her hands, except when she would look around to see

whether any one was watching her.

whether any one was watching her.

The attention of one of the deck-hands had been attracted by her actions, and he lopt his eye upon her. She saw him, and huddled herself closer in the corner.

When the boat landed in Jersey City she got up and walked into the ferry-house. Then she returned to the boat and sat down in the cabin. As soon as the boat was well out of the slip she took up her old seat on the rear deck of the boat and remained there until the boat reached New York.

Then she disembarked and went into the ferry-house. Her actions there excited considerable comment, but no one thought it his duty to inform any of the ferry-boat Jay Gould arrived from Jersey City. A few minutes later the gate was opened and the passengers rushed aboard. Among them was the mysterious girl, and she sat down in a construct of the after cabin.

The boat gradually filled with people who were on their way to their suburban homes, and at 9.30 o'clock it started.

It is the custom of the deck hands to remain on the rear of the boat until after leaving the slip, and then they go forward, one through the men's cabin and the other through the ladies' cabin.

It was not more than a half minute after the deck hands had passed through when the young woman stood up, and peering through the glass doors, opened one of them and walked out.

Two young women who had been watch-

and with her face turned upward she jumped into the river.

The young women screamed and the boat was stopped. The passengers and deak-hands looked out on the water in search of the suicide, but the waters had closed over her, shielding her from sight.

After a delay of three minutes the boat continued on its way to Jersey City.

At the time the girl jumped the boat was about opposite Eighteenth or Twentist street.
